Summary

I'm an aspiring Frontend Developer with a solid understanding of HTML, CSS, and JavaScript, proficient in GitHub for version control. I have foundational knowledge of backend technologies, including Java, SQL, and Python. My goal is to leverage my skills in dynamic web projects, eager to create user-friendly applications that enhance user experiences

Key Achievements

Enhanced User Engagement

Increased app engagement by 30% using intelligent GeminiAI API features.

Optimized Backend Performance

Reduced backend response time by 50% through optimized code.

Open-source Contributions

Contributed to three open-source projects.

Education

Kasireddy Narayanreddy College Of Engg Research

Hyderabad

B.Tech in Computer Science & Engineering . GPA : 8.54

08/2023 - 05/2027

Geeta High School

Hyderabad

Secondary. GPA: 9.50

06/2019 - 05/2021

Skills

HTML • CSS • GitHub • JavaScript • Java • Python • Data Structures • SQL • Vercel • Gmail

Projects

Meal-monarch: (Full-stack fitness web application)

<https://meal-monarch.vercel.app/>

- Developed Meal Monarch, a full-stack fitness web app that delivers personalized diet and workout plans based on user input
- Used GeminiAI API for intelligent suggestions
- Deployed the app via Vercel (frontend) and Render (backend)

Adidevv: (Personal Portfolio Site)

<https://adidevv.vercel.app>

- Developed Adidevv as a personal portfolio to showcase projects, skills, and achievements in an interactive and visually appealing manner.
- Built the frontend using HTML and CSS, ensuring smooth navigation and dynamic content updates.
- Integrated animations and interactive elements to enhance user experience and engagement.
